

# TITAN<sup>®</sup> COATINGS

## Superior Performance and Protection

With years of experience developing coating solutions for the industrial and defense industries, we discovered the most protective, longest lasting and extreme-performance formulas designed for vehicle protection.

But our advanced formulas are only getting better. That's because our research and development experts are committed to maintaining superiority in the fast-paced nanomaterials market by making continuous improvements to our unique formulations with the newest, most unique and exciting components.

Our catalogue of advanced coatings and market-leading customer service give you and your clients complete peace of mind with:

- **Maximum durability** using thoroughly lab-tested formulas.
- **Ultimate protection** for various assets including automotive, aviation, and marine.
- **Shielding for all climates** with extensive real-world research.
- **Asset preservation** from harsh UV rays, scratches, chemicals, and water spots.

## Revolutionary Coatings for Complete Protection

## Titan Coatings for Superior Performance Excellent Protection and Less Maintenance

### Happier Clients and Less Maintenance

By becoming a Titan Coatings expert, you not only build credibility by offering the superior coatings in the industry, but your clients will keep coming back for the durability, performance and protection you offer.

Plus, with our exceptional products, you and your clients will be satisfied with less maintenance and reapplication for year-round 24/7 protection. That means less work, less cost and more shield to ensure assets retain their overall appearance.

Our world class **HyperQuartz<sup>®</sup>**, **DiamondTech<sup>®</sup>** and **Dark Matter Technology<sup>®</sup>** with omniphobic regenerative and flexible properties reign supreme in the fast paced coatings industry.

## Become a Certified Titan Coatings Expert

### Three Simple Steps to Upgrade Your Organization as a Titan Coatings Expert

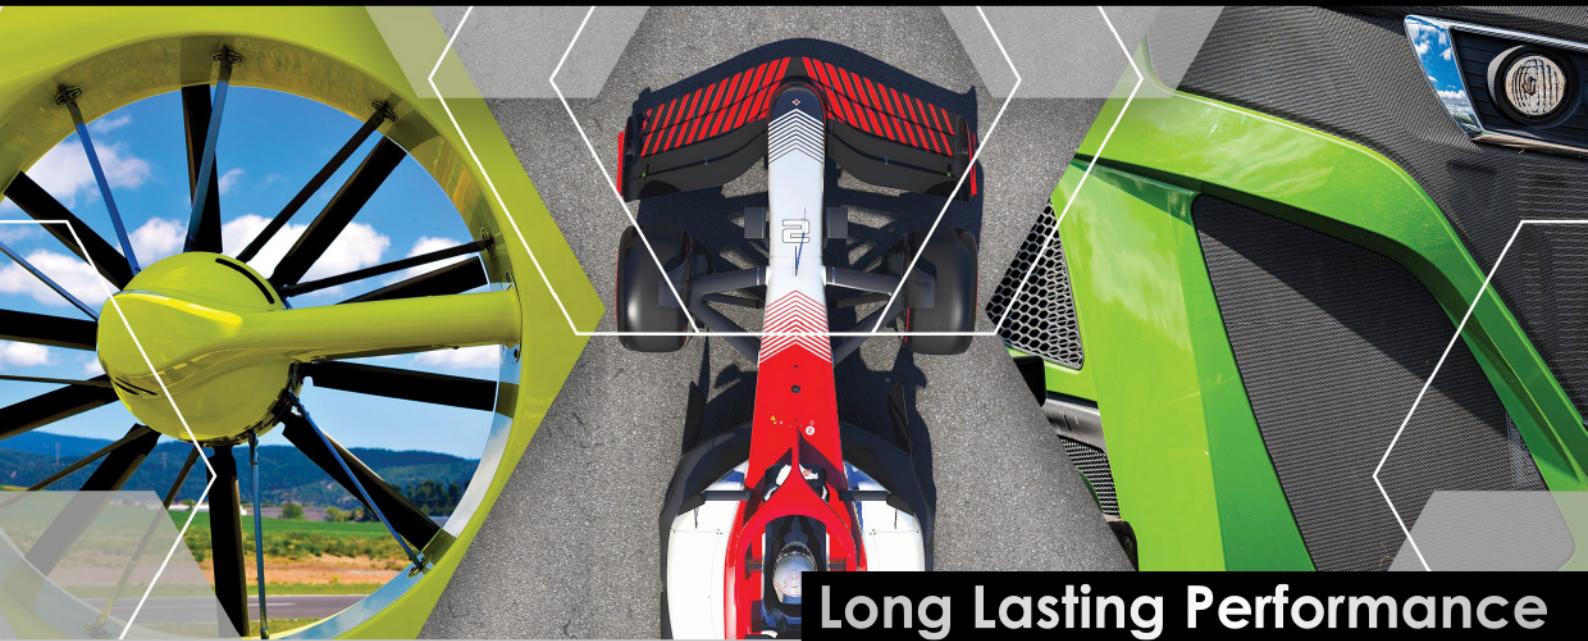

1. Contact us and tell us about your organization, climate, and the types of assets you want to protect. This will ensure you get access for elite coating products approved for your specific organization and purpose.
2. Become a Titan Coatings certified expert and get instant access to our newest, most advanced products designed only for professional use. Plus, with our multi-use coatings for marine, automotive and aviation applications, our dedicated customer service experts can help you attract new clientele and resolve any issues you encounter.
3. Ensure maximum satisfaction for every client with superior coating services, minimum application issues and proven long-lasting performance.

## COATINGS

**Long Lasting Performance**

### **Elite Protection for Any Climate**

As a leading coatings provider in 30 countries, we understand that one high-performance coating product does not work everywhere. As a Titan Coatings distributor or installer, you will have access to coatings tested and approved for your specific climate.

That's because our teams partner with leading institutions to run global testing programs around the world in the harshest climates including Australia, Iceland, Puerto Rico and the Mediterranean.

This ensures you maximize the performance, protection, and satisfaction of every client, without worrying about errors, coating failures, or regular reapplication.

We want our exclusive distribution network to have access to the most up-to-date revolutionary formulas, which is why we are committed to new technology, innovative formulas, and the most advanced coatings in the industry.
